## Performance

Excellent rebound: 22 mm thick tabletop with Skiltop covering  
Perfectly level: 50 mm frame  
Maximum stability: 2 feet  
Height and tension adjustable net

## Safety

Unlocking system for tops in playing position

## Performance

### Excellent rebound

22 mm thick tabletop for a high and perfectly regular rebound  
Surface Skiltop covering for optimum return of spin  
White stripes and perfectly tailored side zones

### Perfect levelness

50 mm frame  
The higher the frame (from 50 to 70mm), the better the flatness  
All our tables are designed with frames made of an alloy of steel, zinc and aluminium which boasts supreme rust resistance  
Wide feet equipped with adjustable height blocks

### Maximum stability

The stability is improved by the 8 feet.

### Adjustable net (height and tension)

The height of the net can be adjusted without affecting tension

## Minimum footprint

### Reduced storage footprint

The 610 table is THE solution for clubs which have a very small storage area

### Possible half-table storage zone

## Ease of use

2 wheels under each panel make moving the table easier

Removable posts and net

**3 years guarantee against any manufacturing defect**

Boosted by 40 years' experience, Cornilleau has selected high-quality materials and boasts a 3-year guarantee on its tables
